USER STORIES

MVP - 1st phase (continued)

As a user, I want to add the address of the buyer, so that I could keep track of the buyer's location

As a user, I want to add the email address of the buyer, so that I could keep track of the buyer's contact details

As a user, I want to add the telephone number of the buyer, so that I could keep track of the buyer's contact details

As a user, I want to add the price at which the artwork sold, so that I could remember the sale price of each artwork

As a user, I want to add that the artwork was included in an exhibition, so that I could keep track of the exhibition history

As a user, I want to add provenance information about the artwork, so that I could keep track of the history of ownership

2nd phase

As a user, I want to be able to link artworks to each other, so that I could specify the relation between them

As a user, I want to select which artworks should appear on the public version of the app, so that I could decide what information should remain in my private archive, and what could become public-facing

As a user, I want to add attachments to the artwork entry, so that I could view all documents related to my artwork in one place

As a user, I want to add the sale invoice, so that I could keep a copy of the invoice given to the buyer for my records

As a user, I want to add the certificate of authenticity, so that I could keep a copy of the certificate given to the buyer for my records
